

WASTE AND RECYCLING SERVICES

Height Barriers installed at Household Waste and Recycling Centres

It is against the law to get rid of business waste by pretending it is household waste and one of the ways to prevent this happening at our household waste and recycling centres is by erecting height barriers.

However, residents who use vans or large trailers to bring household waste to either Smallmead or Longshot Lane are being warned they must prebook from December 1 onwards as height barriers will be in place at both locations.

The number to contact to book a visit to either site is Free phone **0800 9883023**.

In common with other local recycling sites, re3's new Household Waste Recycling Centres in Reading and Bracknell do not accept trade waste. Businesses who want to use the sites to dispose of waste can continue to do so via the existing trade facilities.
